Green Formulations for a better Planet

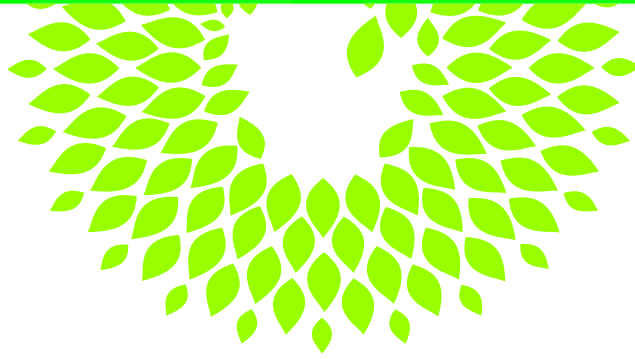

Introducing Performance - Eco Friendly Laundry Solutions

Green Technology | Visibly Better Performance | Longer Linen Life | Complete Range

Class Leading Latest Green Technology Solutions

Eco Friendly: Improved Effluent Outflow

Readily Biodegradable Surfactants & Chelates | No Slurry, Phosphates or APE's

Eco Green Formula

>90% Readily Biodegradable Ingredient

Ecologically Improved

Free from Phosphates, Slurry Based Chemicals, Nonyl Phenyl Ethoxylates, Caustic Soda, EDTA etc.

Environment Friendly

>50% Readily Biodegradable Ingredients

High Performance Extra Brightness & Softness:

Completely New Surfactants & Chelates | Unique Triple Acting Softeners

Powerful 100% Active Biodegradable Powder Surfactant giving Visible improvement in Cleaning & Brightness

Unique Naturally Derived Non Phosphate Based Chelating Agents That remove all Yellowing compounds including Iron

Combination of Cationic, Organic Acid & Silicone Based Softeners which offer unmatched Softening of Fabric.

Extended Life of Linen

Non Caustic Lower Alkalinity Formulations | Organic Neutralizing Rinses

Complete Speciality Stain Removal Range

Special Products for Blood-Rust-Food-Ink Stains etc.

How Haylide has Improved Laundry Performance

Eco Friendly Performance Increasing Technology

Detergents: Visible Extra Brightness & Cleaning:

New Surfactant Technology: Latest Readily Biodegradable 100% Active Powder Surfactants as compared to Slurry Based Surfactants of Traditional Detergents give a Superior Cleaning & Brightening Effect.

New Multi Combination Chelate Technology: In the absence of hazardous Phosphates & EDTA etc. Haylide uses a combination of 3 to 4 Organic Chelating Agents that not only remove Ca & Mg ions but also are specifically catered to remove other salts such as Fe to reduce long term greying & yellowness.

Emulsifiers: Better Removal of Oils & Greases

Latest Enzyme Technology: Unique combination of Readily Biodegradable non toxic Alcohol Ethoxylate Non Ionic Surfactants combined with Multi Enzymes that break down Fats, Proteins, Carbohydrates to provide visibly better performance

Oxygen Bleaching: Cutting down Cycle Time, Water & Electricity Saving

Activated Oxy Bleach Technology: Using Activated Oxy Bleaching which is 100% Readily Biodegradable not only helps the environment but also saves on cycle time as it can be used in the same cycle as Detergent unlike Chlorine bleach which requires a separate cycle. This saves one whole cycle which means time, water & Electricity saving at the same time.

Combination Softener & Rinse: Extra Softness beyond Expectation

Multi Softener & Organic Acid Technology: Using a unique combination of Organic Acids in place of Mineral Acids of Conventional Rinses Extra softness & extended life of linen is obtained, Also utilising a combination of 2 to 3 Cationic & Silicone Softeners in our premium variant, Neutralization of Detergent Charge & Alkalinity apart from Softening take place in a complete step & hence these formulations are higher performing than most products.

Detergents, All-in-ones, Emulsifiers

Eco Green Formula

>90% Readily Biodegradable Ingredient

Ecologically Improved

Free from Phosphates, Slurry Based Chemicals, Nonyl Phenyl Ethoxylates, Caustic Soda, EDTA etc.

Powder - Detergent

Laundro Shot

Premium Powder Detergent & Booster

Alkalinity - Medium High
Usage - All Generic Laundry
(Linen-Towels-F&B-Uniforms)
Dosage - 4-6 gms/Kg Dry Load
Cycle - 15-25 minutes
Temperature - 30 to 90 Deg. C
Compatible Products - Same Cycle
(Laundro Mulse E & Super, Laundro Bleach - O)

Laundro Det

Econo Powder Detergent & Booster

Alkalinity - Medium High
Usage - All Generic Laundry
(Linen-Towels-F&B-Uniforms)
Dosage - 4-6 gms/Kg Dry Load
Cycle - 15-25 minutes
Temperature - 30 to 90 Deg. C
Compatible Products - Same Cycle
(Laundro Mulse E & Super, Laundro Bleach - O)

Powder - All-in-One (Detergent + Oxy Bleach)

Laundro Complete

All-in-One Sensitive Oxy Detergent (No Soda)

Alkalinity - Low (No Soda)
Usage - High End Laundry
(Linen-Towels-F&B-Uniforms)
Dosage - 4-5 gms/Kg Dry Load
Cycle - 15-20 minutes
Temperature - 40 to 60 Deg. C
Compatible Products - Same Cycle
(Laundro Mulse E & Super)

Laundro Excel

All-in-One Powerful Oxy Detergent

Alkalinity - Medium
Usage - High End Laundry
(Linen-Towels-F&B-Uniforms)
Dosage - 4-5 gms/Kg Dry Load
Cycle - 15-20 minutes
Temperature - 40 to 60 Deg. C
Compatible Products - Same Cycle
(Laundro Mulse E & Super)

Liquid Emulsifier

Laundro Mulse - E

Speciality Non Ionic Booster

Alkalinity - Neutral
Usage - F&B & Greasy Industrial Linen
Dosage - 2-6 ml/Kg Dry Load
Cycle - 15-25 minutes
Temperature - 30 to 90 Deg. C
Compatible Products - To be Used with
(Laundro Shot, Det, Excel, Complete, Kleen & Det-L)
(Also May be used with Laundro Bleach-O & Chlor)

Laundro Mulse Super

Regular Non Ionic Booster

Alkalinity - Neutral
Usage - All Extra Dirty/Greasy Linen
Dosage - 2-4 ml/Kg Dry Load
Cycle - 15-25 minutes
Temperature - 30 to 90 Deg. C
Compatible Products - To be Used with
(Laundro Shot, Det, Excel, Complete, Kleen & Det-L)
(Also May be used with Laundro Bleach-O & Chlor)

Bleaches, Rinses, Softeners

Powder - Oxy Bleach

LaundroBleach - O  

Powder Oxygen Bleach

Alkalinity - Low (No Soda)
Usage - All Linen
(Guest, Towels, Linen, Unfirms, F&B)
Dosage - 2-4 gms/Kg Dry Load
Cycle - 15-25 minutes
Temperature - 40 to 70 Deg. C
Compatible Products -
To be Used with
(Laundro Shot, Det, Kleen)

Liquid Chlorine Bleach

Laundro Chlor-10

10% Liquid Chlorine Bleach

Alkalinity - Medium High
Usage - White Cotton only
(Towels, Linen, Unfirms, F&B)
Dosage - 3-8 ml/Kg Dry Load
Cycle - 5-10 minutes
Temperature - 30 to 40 °C
Compatible Products
(Always Use Separately)

Laundro Chlor

5% Liquid Chlorine Bleach

Liquid - Softeners & Rinse

LaundroSoft - N  

Premium Softener & Neutralizer

Acidity - Low (Organic)
Usage - All Linen
(Guest, Towels, Linen, Unfirms, F&B)
Dosage - 2-6 gms/Kg Dry Load
Cycle - 5-10 minutes
Temperature - Room Temp
Compatible Products -
(Always Use Separately)

LaundroSoft  

Regular Liquid Softener

Acidity - Very Low
Usage - All Linen
(Guest, Towels, Linen, Unfirms, F&B)
Dosage - 2-6 gms/Kg Dry Load
Cycle - 5-10 minutes
Temperature - Room temp
Compatible Products -
(Laundro Rinse if needed)

Liquid - Rinse & Neutralizer

Laundro Rinse  

Liquid Neutralizer

Acidity - Medium (Organic)
Usage - After Det/Oxy Bleach Cycle
(Towels, Linen, Unfirms, F&B)
Dosage - 3-8 ml/Kg Dry Load
Cycle - 5-10 minutes
Temperature - 30 to 40 °C
Compatible Products
(Do Not use after Chlorine)

LaundroRinse-C

Liquid Anti Chlor

Alkalinity - Neutral
Usage - After Chlorine Bleach Cycle
(Towels, Linen, Unfirms, F&B)
Dosage - 3-8 ml/Kg Dry Load
Cycle - 5-10 minutes
Temperature - 30 to 40 °C
Compatible Products
(Only for use after Chlorine)

Speciality Liquid Detergents & Stain Removers

Liquid Detergent

LaundroKleen

Light Duty Liquid Detergent

Alkalinity - Low-Medium (No Soda)
Usage - Sensitive Laundry
(Guest Laundry, Sensitive Linen)
Dosage - 4-6 gms/Kg Dry Load
Cycle - 15-25 minutes
Temperature - 30 to 90 Deg. C
Compatible Products - Same Cycle
(Laundro Mulse E & Super, Laundro Bleach - O)

Laundro Det - L

Alkaline Heavy Duty Liquid Detergent

Alkalinity - Medium High
Usage - All Generic Laundry
(Linen-Towels-F&B-Uniforms)
Dosage - 4-6 ml/Kg Dry Load
Cycle - 15-25 minutes
Temperature - 30 to 90 Deg. C
Compatible Products - Same Cycle
(Laundro Mulse E & Super, Laundro Bleach - O)

Liquid - Stain Removers

BST

Blood Stain Remover

For Removal of Dried & Fresh Stains
Usage - Direct Application & Scrubbing
for Old Stains, For Fresh Stains
Dosage - 4-6 ml/Kg Dry Load in Pre Wash.
Cycle - 5-10 minutes
Temperature - Room Temperature
Compatible Products - Same Cycle
(Laundro Mulse E & Super, Laundro Bleach - O)

Stainex D-INK

Ink Stain Remover

For Removal of Ink Stains
Usage - Direct Application & Scrubbing
(Followed by bleaching for Whites)
Dosage - Ready to Use
Cycle - NA
Temperature - Room Temperature
Compatible Products - NA

Stainex D- RUST

Rust Stain Remover

For Removal of Rust Stains
Usage - Direct Application & Scrubbing
(Followed by bleaching for Whites)
Dosage - Ready to Use
Cycle - NA
Temperature - Room Temperature
Compatible Products - NA

Stainex Food

Food Stain remover

For Removal of Food Stains
Usage - Direct Application & Scrubbing
(Followed by bleaching for Whites)
Dosage - Ready to Use
Cycle - NA
Temperature - Room Temperature
Compatible Products - NA

Example of Reduced Washing Cycles

Towels / Linen

		Eco friendly 2+2 Cycle Program (Oxygen Bleach)	
Detergent + Bleach Cycle		Rinse	Neutralizer + Softener Cycle
Super Premium (Completely Eco Friendly)	Laundro Complete Powder Detergent & Oxy Bleach		LaundroSoft - N Softener & Neutralizer
Premium	Laundro Excel Econo Powder Oxy- Detergent		
Regular	Laundro Det Powder Detergent & Booster LaundroBleach - O Powder Oxygen Bleach		Laundro Rinse Liquid Neutralizer LaundroSoft Liquid Softener
Economy	Laundro Shot Econo Powder Detergent & Booster LaundroBleach - O Powder Oxygen Bleach		
Saving of 4 Cycles (Electricity & Water) Range of Cost Options Use of Oxy Bleach -gives lLong Life of Towels & Linen due			

Guest Laundry

Eco friendly 2 Cycle Program		
Detergent + Bleach Cycle		Rinse
Super Premium (Whites + Color)	Laundro Complete Powder Detergent & Oxy Bleach	
Premium (Whites + Color)	Laundro Excel	
Regular (Whites + Color)	LaundroKleen Light Duty Liquid Detergent LaundroBleach - O Powder Oxygen Bleach	
Economy (White + Colour)	LaundroKleen Light Duty Liquid Detergent	

Staff Uniforms / F&B Laundry

Eco friendly 2 + 2 Cycle Program with Oxygen Bleach			
 		Neutralizer Cycle	
Super Premium (Completely Eco Friendly)	Laundro Complete Powder Detergent & Oxy Bleach Laundro Mulse - E Liquid Emulsifier	Rinse	Laundro Rinse Liquid Neutralizer
Premium	Laundro Excel Econo Powder Oxy- Detergent Laundro Mulse - E Liquid Emulsifier		
Regular	Laundro Det Powder Detergent & Booster LaundroBleach - O Powder Oxygen Bleach Laundro Mulse - E Liquid Emulsifier		
Economy	Laundro Shot Econo Powder Detergent & Booster LaundroBleach - O Powder Oxygen Bleach Laundro Mulse - E Liquid Emulsifier		
		Rinse	

Chlorine Bleach: Laundrochlor - 10 may be used in place of Oxy Bleach **Laundro Bleach - O**, but has to be used in a separate cycle from Detergent & hence 2 extra cycles involving Bleach & Rinse will be used.

Use **Laundro Mulse Super** for Cleaning Heavily Soiled Towels/Linen or Guest Laundry or Lightly Soiled Staff Uniforms at Low Dosage in the Detergent Cycle for best results.

Entire Stain Removal Kit is available. For Blood Stains Pre Soak Stained Laundry in **BST - Blood Stain Remover** in diluted Condition & then Wash the Load Normally. For Ink & Blood Stains **STAINEX - D-Ink & STAINEX D-Rust** have to be used directly on the stain as a spotter.

Green Formulations for a better Planet

Laundry Chemicals with a Difference

Eco Friendly yet Performance Oriented

Our Laundry Range is Manufactured from the Latest Ingredients that are not based on Slurry, Do not contain phosphates or banned Nony Phenol Ethoxylates. Performance is a top Criteria & delivery on Cost effectiveness is better due to lower dosing than similar costing products.

Water, Electricity, Time & Money Saving (Due to Reduced Cycles)

Choosing Oxygen Bleaching is not only good for the environment but also for saving on Water, Electricity & reduced turnaround time per cycle.

Extend the Life of Your Linen

By Choosing Non Chlorinated, Low Alkalinity & Eco Friendly Detergents & Bleaches you ensure minimum damage to Linen Fibre hence increasing the life of Your Linen in terms of strength & brightness.

**Haylide brings you the perfect Laundry Solution
That you had been waiting for.**
